

LETTER OF RECOMMENDATION

It is my great pleasure to recommend **Mr. MANYAM ANIL** for pursuing a master's degree in computer science domain. I have been associated with him as faculty for Communication for Cyber physical systems in his third year of B.Tech program. I have noticed an inherent yearning to accumulate knowledge in him. He is the epitome of fitness in communication in his class. He grasps the gist of the topic very quickly and tackles the problem in a very systematic way.

Being a computer science student, He is motivated, eager for knowledge and is always on the lookout to learn something new; his learning interest is revealed by his involvement in latest technologies. He is an attentive student in the class, receptive to new ideas and has concepts and his capacity for lucid presentation. He has a great zeal for higher academics.

Anil's approach to his endeavor was admirable from the beginning. He worked on a project called **IOT THEFT DETECTION DEVICE** using Arduino IDE. Regardless of whether the phone is locked or unlocked, or even if another app is currently active, the user will receive this notification. which demonstrated to me his mastery of fundamental concepts and exceptional mental clarity. He consistently achieves good test scores and got highest in the cumulative assessment.

I'd like to emphasize my endorsement for Anil before I finish. He'll be a great addition to your graduate program, in my opinion. You will undoubtedly discover him to be a student whose abilities will only get brighter as he progresses through your postgraduate program.

Dr. J. Florence Gnana Poovathy
Asst. Prof. Sr., Gr. 2
Division of Electric Vehicles Incubation,
Testing Research Centre – DEVIT-RC
School of Electronics Engineering,
VIT Chennai
